Your perfect
solution in
Molds + injection

How do we do it?

Our services

PLASTIC INJECTION MOLDS

We specialize in the manufacture and production of high-quality plastic injection molds.

- Design and manufacture of high-quality molds
- Mold Repair
- Maintenance
- Engineering Changes

PLASTIC INJECTION

We count with last generation machinery that make our production process stable and precise.

- We guarantee the highest functionality level
- We assure repeatability and energy saving

FULL PROJECT DEVELOPMENT AND MANAGEMENT

We help you make a diagnose of the cost-Benefit of your idea and we watch every step of the implementation.

We verify that the functionality, performance and quality of the mold is optimal

Save costs, guarantee quality and improve exploitation of resources when the number of pieces to produce is high and in chain

HIGH PRODUCTION
Mold manufacture of high and low performance, and warranty

ENGINEERING CHANGES
Engineering changes through the study and work of 2D maps, CAD documents and technical

MOLD REPAIRS
Injection mold repairs that guarantee and long durability and design efficiency

OPTIMIZE PERFORMANCE
Design and construction of molds thorough cooling processes that allow the optimization of the cycle time

INJECTION MOLDS MAINTENANCE
Injection mold maintenance at corrective level as well as preventive level

We guarantee quality in your project through our Quality System

Program development life cycle

PHASE 1

Diagnosis of our client's needs and feasibility analysis.

PHASE 2

Product and process design

PHASE 3

Product and process validation

PHASE 4

Production launching

We are certified on

Benefits of working with us

Consultancy **before**,
during and **after** the
sale in every project.

We bring **innovation**
and **creativity** in every
project.

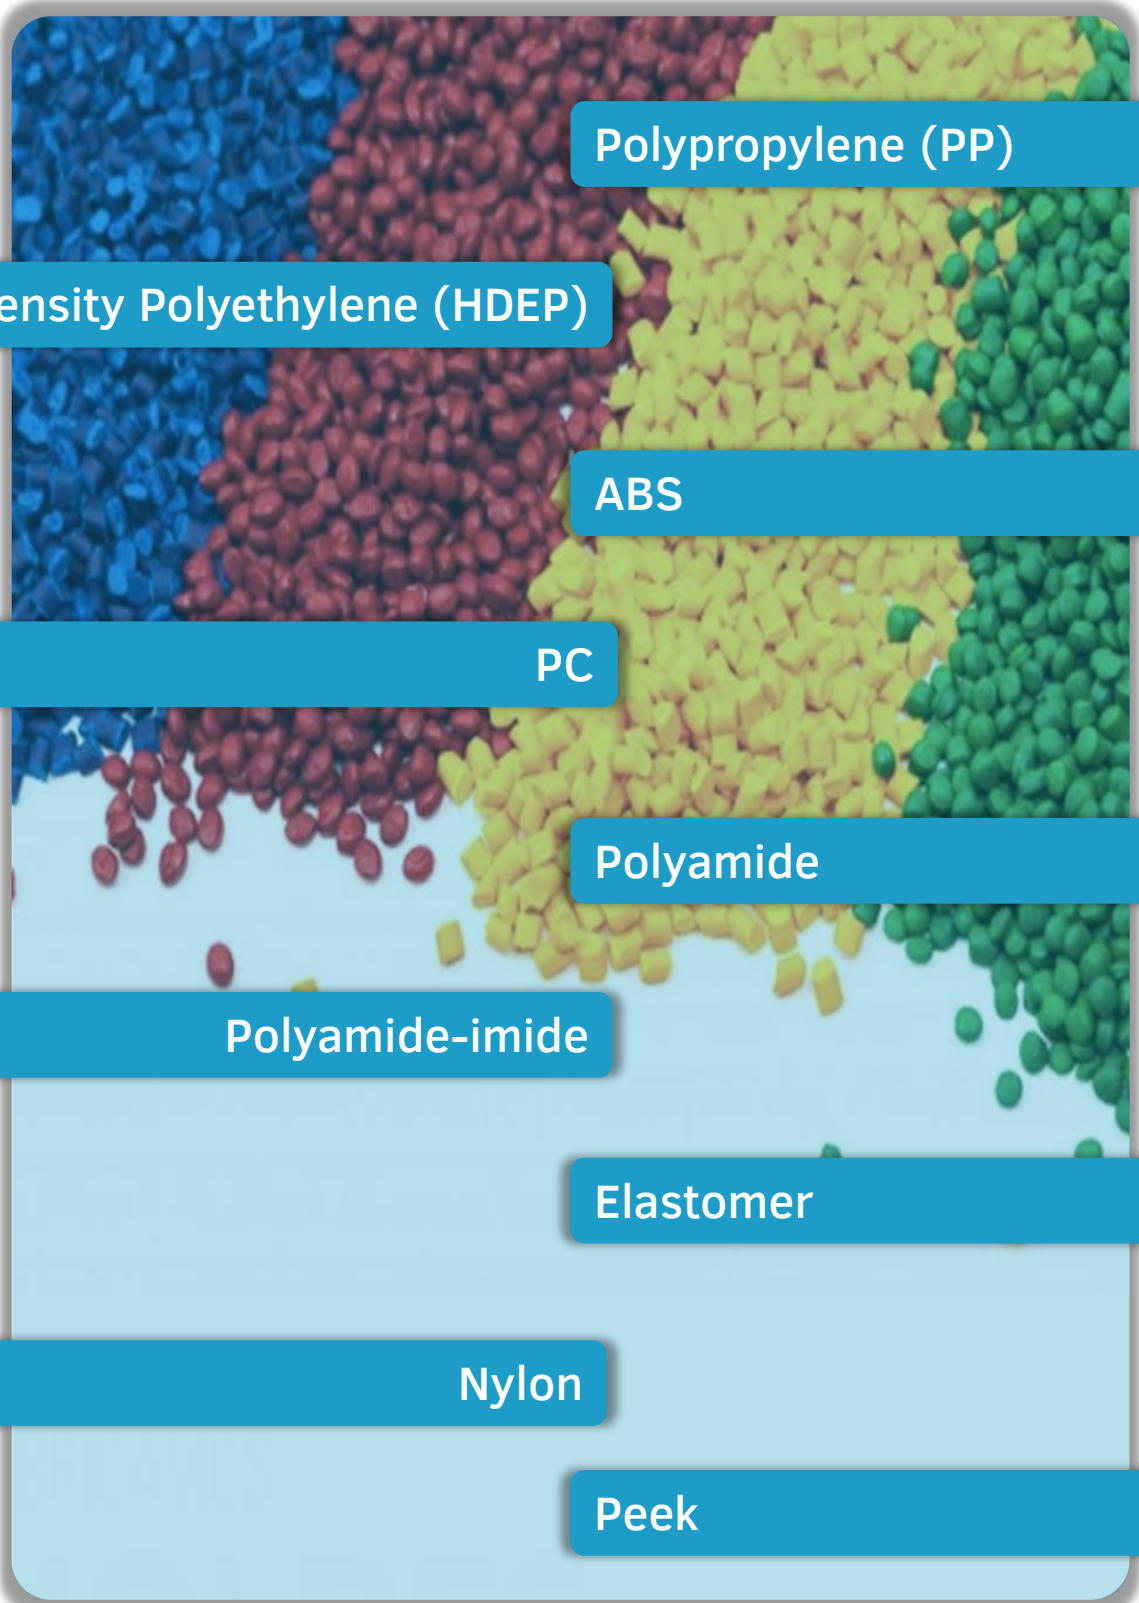

We guarantee **quality**
and **precision** in
every part.

We meet **deadlines**
and **agreements** in
every project.

We reach your
goals through
team work.

We watch over the
quality and
guarantee every
part.

Types of Resins we use

Polypropylene (PP)

High Density Polyethylene (HDEP)

ABS

PC

Polyamide

Polyamide-imide

Elastomer

Nylon

Peek

Machinery we use

200 ton machine

92 ton machine

280 ton machine

220 ton machine

Traveling Crane

450 ton machines

Aerospacial

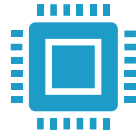

Health

Automotive

Agriculture
and irrigation

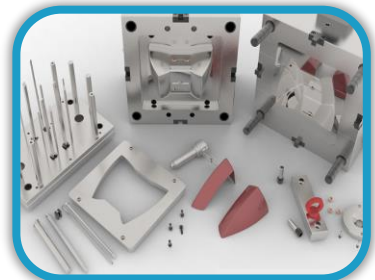

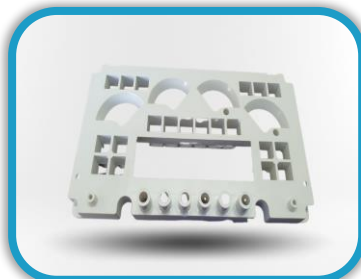

Electric and
electronic

Home Appliances

Industries where we participate
